

Dear Fellow Central Indiana Staff Members:

I want to take this opportunity to reach out to say how excited I am to be joining the AMG Central Indiana team. I admire AMG's mission of an unyielding commitment to Patients, People and the Pursuit of Healing, which mirrors my personal beliefs of taking care of patients, taking care of the people who take care of patients and taking care of the organization that allows us to do so. I know I have joined a terrific team that has produced great results in the past and look forward to building on those successes into the future.

In the coming days, I look forward to getting to know you personally. I will be establishing a presence at both campuses to meet you and learn about each facility's particular strengths and needs.

My wife and I are happy that we will be remaining in the Midwest. I was raised in the Chicagoland area and earned a master degree in Hospital Administration from the University of Minnesota. With a long history of general hospital service, I have been able to gain experience in service line development, clinical services, ancillary and support services. Most recently I was with Select Medical, another LTACH provider, and was Market CEO for a two-campus LTACH in Northwest, IN (in East Chicago and Portage), followed by CEO in Northern Kentucky. I learned the importance of two campuses respecting their individual environments, cultures and strengths. At the same time, we were able to work together to meet the needs of the greater community of referring hospitals and patients.

As the new CEO, one of my most important roles will be assessing how we can build on the foundation you have established. The best way for me to fulfill this goal is to be among all of you, learning about your day-to-day accomplishments, challenges and the improvements we feel are needed to best serve our patients. I do believe that good service and outcomes will drive business and employment. You will find that I am transparent in terms of our objectives and how well we are meeting them in service to our patients.

I look forward to personally meeting you, continuing to provide excellent care and enhancing a terrific place to work.

Sincerely,

Victor J. Galfano, FACHE
CEO – Central Indiana
